RECORDER:	Jenny Vorpapel		
NEXT MEETING:	Wednesday June 14 th , 3-4:30pm		

PILLAR	TOPICS	DISCUSSION & DECISIONS TAKE HOME TASKS
Welcome & Introductions		
Drug Take Back Day APRIL 29th 2017 Report Out	<p>We collected 610 pounds throughout all the sites in the county. 360 pounds of that was collected at St. Nicks. Along with the permanent boxes from the last 6 months, we disposed of a total of 1,356 pounds of medication. It was also a record high take back day statewide.</p> <p>Group discussed what went well for such a good turnout: DOJ giving a media kit, a lot of people said they saw it on TV (local news stations, people then researched if Sheboygan County was doing it.), a lot of people said they heard through work.</p> <p>Volunteers in Oostburg were told that it could be at a better location on a “main drag”. Location in Howards Grove could also be better. Discussion took place about the possibility of having them at the fire stations in Random Lake and Howards Grove. Sheriff’s deputy Patrick in Oostburg was wonderful.</p> <p>Oldest drug that was found: 1983--Oostburg</p> <p>Communication could be better with Plymouth on what to do with the sharps.</p>	Mary will contact Howards Grove and Random Lake fire stations
PILLAR REPORTS: Education/ Prevention Pillar	<ul style="list-style-type: none"> -Promoting the treatment options in an era of opioid addiction on Tuesday May 23rd at the Berkshire (above the Black Pig) -Looking at doing presentations at the meal sites again -Michelle reported that on May 24th Pain Contract Focus Group is being done for the third time. -The presentation training sessions were held in April. Between the 2 sessions there were about 20 people who attended. The notes that are on the slides are to be tailored to the 	 Advanced Pain Management-HSC 20.

PILLAR	TOPICS	DISCUSSION & DECISIONS TAKE HOME TASKS
	<p>group you are presenting to. Libby will be sending out the presentation. The file is large, so if you cannot receive it, please bring a thumb drive to the June meeting.</p> <p>Anytime we receive a request, an email will be sent out to the people who were trained on the presentation. One request was received for June 19th.</p>	Kurt and Mary to do the June 19 th lunchtime presentation.
Harm Reduction Pillar	<p>Focused on take back day.</p> <p>Looking at community sharps disposal—in assessment mode. Mary provided resources of other community campaigns that they are looking at.</p> <p>Talking about treatment providers—what are they communicating to their clients? Some people are using Kwik Trip and Wal-Mart for their sharps containers. Libby is in contact with the methadone clinic.</p> <p>Nick will be discussing safe needle disposal with his staff. Is there a card that can be given out to people?</p> <p>Still issues with the permanent boxes indicating that they don't take liquids.</p>	
Treatment Pillar	<p>Aurora Behavior Health Wellness Center (across from Aurora Sheboygan Clinic) has an open house tonight (May 10th)</p> <p>The Methadone clinic in Sheboygan is now called Sheboygan Comprehensive Treatment Center. They are having an open house in June.</p>	 SCTC Brochure.pdf  SCTC Open House.pdf
Law Enforcement Pillar	-Carfentanil has made its way to Wisconsin. (stronger than fentanyl, which is stronger than heroin) Milwaukee had several deaths in a short period of time. It has not made its way to Sheboygan County yet. Only one fatal overdose in the county this year so far.	
Workplace Pillar	<p>Kurt shared the book that Kohler gives out to supervision regarding their substance abuse policy. It involves real life scenarios.</p> <p>Other businesses in Sheboygan County also work with employees in treatment (Johnsonville, Sargento, etc)</p>	Kurt will share the Kohler resources with the workplace pillar.
Recovery Pillar	<p>Kurt, Libby, and Kate Baer met with Shelby and Troy from WIRCO regarding getting them to be trainers for recovery coaches. This will be supported from the Acuity grant money.</p> <p>June is the next training and they will hopefully be headed to it.</p>	
Leadership Council Update	Looking at where they are going with the community health assessment and support all the CHC's. They are looking for good data. Looking at logic models etc. More to come on that.	
Next Steps	<p>Next month's meeting:</p> <p>Department of Safety and Professional Services office contacted us have been invited to next month's meeting. They will be talking about the PDMP (Prescription Drug Monitoring Program)—there will be an open invitation to anyone who would like to attend.</p>
