ITEM	DISCUSSION/CONCLUSION/RECOMMENDATIONS
Welcome & Introductions	
HSC 2020 Leadership Council Updates <ul style="list-style-type: none"> Website/Press Articles (Jenny Vorpapel) 	<p>-Libby updated group on Leadership Council. This is the last year of the CHIP. Leadership wants to better support the HSC2020 committees. Struggled with the question of what do we call success. The 2018-2020 CHIP wants a routine way to update the plan and support committees. WALDAB has a toolkit that includes performance measures. This includes baseline measures that help to measure progress. (link to toolkit). They will be conducting “outcome” trainings to the chairs of all the committees in order to have everyone speak the same language. March meeting will have an update on the Leadership timeline.</p> <p>-CHNA is underway. Secondary data is starting to be collected, key informant interviews will be done by March 1st, and the community health survey calls are being made now. If “Management Decisions” calls you, please answer! Community engagement session still to be scheduled, will be at end of August or early September.</p> <p>-Fiscal agent update: It was decided that instead of project fiscal agents, LCHC will be the new fiscal agent. Well County will continue to stay under the YMCA.</p> <p>-Leadership decided for each sub-committee to have a health literacy refresher since each committee is supposed to be keeping health literacy in mind instead of it being another sub-committee.</p> <p>-Please submit any health related events to the HSC2020 website!!</p> <p>-Thank you for the great response for Press article sign up! We are booked through the end of April and only one slot is open in May. Kate suggested we include in an upcoming article to remind people about the HSC2020 website. Libby will include it in her February article. Group discussed adding a line at the end of each article telling people to go to our website to view and submit health events.</p>

ITEM	DISCUSSION/CONCLUSION/RECOMMENDATIONS
<p>SBIRT Sub-Committee Update (Kari Keller/Shelby Kuhn)</p>	<p>We have a school SBIRT training set up for August 2-3 and possibly August 9-10th. Currently trying to work out issue with schools expecting overflow agencies as a backup/on call. The DPI model doesn't have any outside help, it is all done in the schools. Aurora has already said they cannot be an SBIRT backup. February SBIRT meeting will be school personnel working with Scott Caldwell with DPI. Libby applying for a grant through AWY.</p> <p>SBIRT in healthcare is a slower process. Plymouth family practice is the hopeful pilot program, but staff turnover has slowed that down.</p>
<p>Heroin Sub-Committee Update (Libby Holte/Kurt Zempel)</p>	<p>There are six different pillars:</p> <p>Prevention/Education—Working hard to make relationship with schools. Regan is AODA supervisor for SASD. Looking to fill gaps in the schools, and what do they really need. Working on youth risk behavior survey for schools as well. Working on a standard community presentation. Anyone willing to give this presentation, there will be a training on giving this presentation in the next month or two. Presentation is about heroin and opioids in Sheboygan County, and actions that community members can take to help.</p> <p>Harm Reduction Pillar—Trying to get more awareness of permanent drug boxes. Trying to work with funeral homes on getting drugs disposed. Feb 7th Mary is doing presentation to funeral directors. Getting education out about the Hope Law so the community fully understands it.</p> <p>Next drug take back day is April 29th. Committee is looking at possibility of adding more sites, but they need to ensure they'd have enough volunteers to do so.</p> <p>Law Enforcement Pillar—Drug endangered children protocol—working with HHS</p> <p>Treatment Pillar—Lindsay Rick as left HHS, looking for new pillar captain. Nick Larkin, behavioral health services manager will work to host another networking meeting.</p> <p>Workplace Pillar—WI recovery community organization (WRCO)—Step Industries in Neenah helps people in recovery with sustainable housing and employment. Talks about finding a new chair to keep the flow of the pillar going.</p> <p>Recovery Pillar—</p> <p>The Wisconsin Recovery Community Organization is ready to get things rolling again in Sheboygan.</p> <p>We will be holding a strategic planning meeting on Saturday, February 4th at 816 N. 8th St. and we would like you to attend. We will be meeting from 9 AM to 5 PM but you're welcome to attend anytime. We want to make sure we have all the stakeholders there.</p> <p>We will be identifying objectives and goal setting. We will be bringing in Jesse Heffernan to guide us through our planning.</p> <p>Some of the items we will be discussing are:</p> <ol style="list-style-type: none"> 1. A Sheboygan needs assessment review and analysis 2. A vision development exercise 3. Mission development 4. What are our main objectives 5. Identifying tracks to reach our objectives 6. What should we do next <p>1907 Club history—it is no longer a recovery community organization.</p>

ITEM	DISCUSSION/CONCLUSION/RECOMMENDATIONS
Stigma Sub-Committee Update (Kate Baer)	Mental Health AODA resource fair is in beginning stages of planning—being let by Jessica Miner. Committee is focusing on 2-3 objectives for 2017 instead of trying to get too much done with little results.
ROUND TABLE - Agency updates & info	
Other	March 15th meeting will be in the Christopher Room at St Nicholas Hospital
