Welcome and Introductions	
Question that needs to be discussed before moving forward with SBIRT process.  If the implementation of SBIRT is going to occur within all healthcare systems what action steps/tasks need to occur?  To move forward with the grant, we need to get these questions answered. Buy-in from leadership, Buy-in from providers, Financial Support, Training	Mary stated that St. Nicholas Hospital is supportive of the SBIRT concept but she is not the person to make the decision to implement SBIRT. She will follow up with Mary Martin.  Dr Murthy stated that one provider or a smaller office should be looked to move forward with SBIRT, to be a permanent part to the office's services and clinician's time. Presently, Aurora is doing a primary care redesign. It would need to be discussed with clinic managers with advantages of SBIRT shown,
Change Maker Grant	Kristine and Libby met to review the application of the grant. Libby discussed the four questions and the timeline to apply for the grant and that decisions need to be made in order to answer the questions. Who will be screened, what screening tool will be used. Draft is needed by 12/16/15. Libby will contact Kristin, Karlyn, Ann, and Mary P.,( volunteers for sub group) to have a meeting to get these answered.
